

HELLO AND WELCOME TO KS3'S SECOND BLOG OF THE YEAR!

- **We have continued to work hard and involve ourselves in all of the activities that are offered at Evolve.**
- **We are really looking forward to October half term despite enjoying our first half term back.**

We all love taking part at adventure Sunderland and the whole of KS3 took part in fencing. We can be very competitive which makes it really exciting and it was lots of fun.

Paddle Boarding

The weather has been lovely lately so we have still been able to go in the sea at Adventure Sunderland.

We did paddle boarding last week on the most beautiful day. It was so much fun.

Gavin and Connor helped get the paddle boards out and carried them to the beach. The rest of KS3 went in the sea and we did a Geography quiz. We then collected stones and rocks, including coal and flint for our classroom display.

It was a beautiful day so we had 10 minutes chilling in the sun. We laughed a lot when Ben put the hose down Nicole's wetsuit and this happened to her leg.

Happy Birthdays

We celebrated Leon's Birthday last month and this month it was Rachel's birthday. As a Crew we came together and got her something we thought she would really like.... An edible candy crystal!

Rachel was so happy that she went and showed everyone in the school!

Connor's birthday is coming up in the half term holiday, we hope he has the best day!

Fit 2 Learn by Gavin

In the morning I do Fit 2 Learn. We go down to the field to play football and boules. It is a nice opportunity to spend time with students from all year groups.

Charlie was this week's boules Champion in PE. Well done Charlie!

Me, Leon and Joe play against each other a lot with Joe winning most of the time!

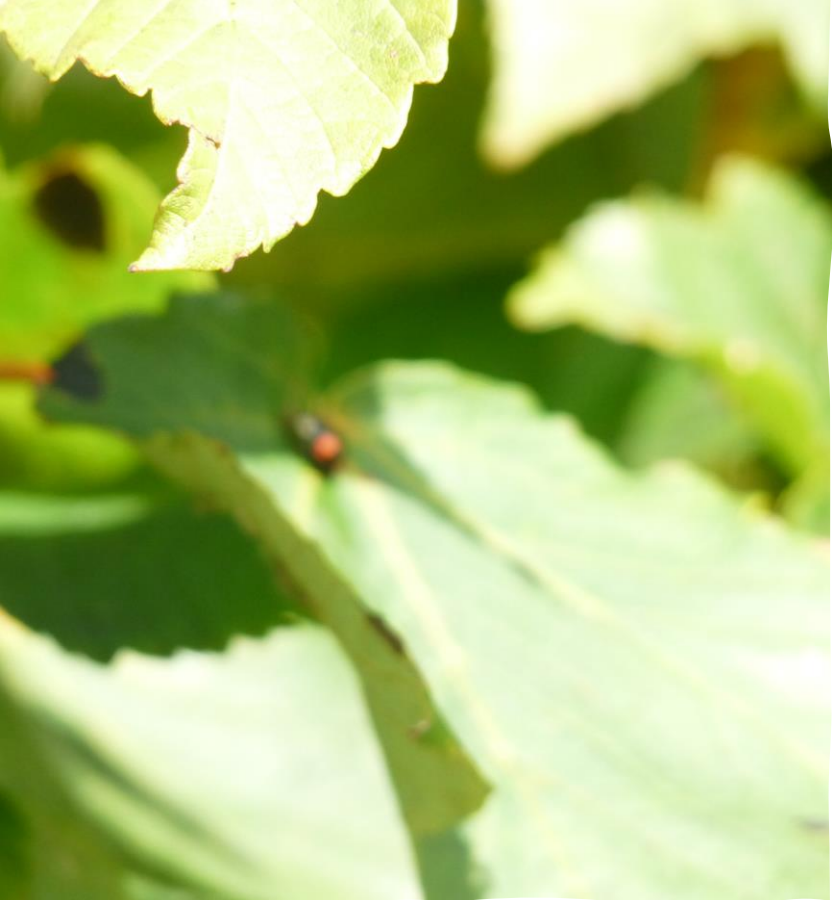

Science - Circuits

We are learning about electricity in science. We have learned about components and have made series and parallel circuits in practical lessons.

Still Life by Charlie

Still life photography is a genre of photography used for the depiction of inanimate subject matter, typically a small group of objects. It is similar to still life painting.

We went around the school to find examples to photograph that represented still life.

Macro photography.

In LCA, we went around the school looking for things to photograph.

These were some of our pictures.

PUMPKIN PAINTING

We have been painting pumpkins as part of Halloween fit to learn.

There are lots of different designs and colours on lots of different pumpkins. It was very messy but we loved it.
